Amazon MWS Token renew request

Frage (öffentlich)

How do you request or renew the Amazon MWS Token?

Lösung (öffentlich)

Amazon requires authentication to transfer data via magnalister. Please enter the respective keys for „Merchant ID“, „Marketplace ID“ and „MWS Token“.
You can request these keys through the relevant Amazon marketplace, you wish to connect.

Please make sure, you are using the Seller Central Professional plan, to be able to upload items via Amazon API.

Important note:
Authorization expiration dates will be set to one year from the initial authorization date of your MWS token. Starting one month before the expiration date, you will receive weekly email reminders and Seller Central notifications to take action. You will be required to review your expiring developer authorization in Seller Central, and to renew the authorization. If you do not take action the authorization token will be deactivated on the expiration date. When an authorization expires, the authorization token is deactivated but not invalidated. This means that you can renew an expired authorization which will reinstate the developer access.

The renewal of an authorization resets the expiration date to one year from the date of renewal.

If you forget to renew your MWS token, magnalister will be unable to synchronize prices and stock, also order imports are not possible.

Please make sure to renew your authorization token in time to avoid any trouble with your buyers and/or Amazon by following these 4 easy steps:

Here is how you request or renew the Amazon MWS Token:

Step 1:
Please choose the relevant Amazon marketplace you would like to activate.

Step 2:
Hover over „Settings“ and go to „User permissions“ and choose „Visit Manage Your Apps“.

Step 3:
If magnalister has not yet been authorised:
Choose "Authorise new developer" and proceed with Step 4.

If magnalister has already been authorised and you simply want to renew the token:
Now please click the "Renew" button. The MWS Token will be renewed automatically and you may ignore Step 4 and 5.

Step 4:
Follow the instructions in the Amazon MWS Wizard and apply all relevant information when asked.

For european Amazon marketplaces:
Name of Application: magnalister
Account Number: 4141-0616-7444

For Amazon USA marketplace:
Name of Application: magnalister-us
Account Number: 8260-4311-6738

Step 5:
Copy and paste „Merchant ID“, „Marketplace ID“ and „MWS Token“ from Amazon into the credentials in magnalister configuration.
