#### Frage (öffentlich)

Why are only 4 product images uploaded to Cdiscount, even if I want to upload more than 4 images?

#### Lösung (öffentlich)

On Cdiscount a maximum of 4 pictures per item are allowed. In addition: For each uploaded variant, a maximum of four images are also allowed. Example: If you upload a sneaker in four different sizes, you can upload 4 images for each size variant.

If you selected the function "always upload from webshop" in your magnalister product preparation, magnalister always uploads the first four images of your webshop item.

If you have stored more than 4 images in your items, but want to upload image 5 to 8 instead of 1 to 4, you can select and save the images to be transferred in your magnalister Cdiscount product preparation. magnalister will then upload the selected images.
