### Frage (public)

How can I grant my aggregator (magnalister) access to my Octopia seller account via the REST API?

### Lösung (public)

Follow this step-by-step guide to grant your aggregator access to your Octopia account via the API:

- 1. Open the API Credentials Management Page**  
Go to the following URL:  
[1]<https://developer.octopia-io.net/api-credentials/#linkAgreeToSeller>
- 2. Select Your Aggregator**  
Choose your aggregator (magnalister) from the dropdown list.  
If it is not listed, click on: My aggregator is not on this list. Then "My aggregator provided me its clientId"
- 3. Enter Client ID Manually**  
Enter the Client ID provided by your aggregator.  
For magnalister, the Client ID is: magnalister  
Accept the Terms & Conditions and click on: Confirm my aggregator clientId
- 4. Confirm Access**  
You will now be asked if you want to grant your aggregator access.  
Click on: Proceed with seller authentication
- 5. Log into Your Seller Account**  
A pop-up window will open.  
Enter your Octopia login credentials:
- 6. Final Access Confirmation**  
Octopia may detect that you're not using the main account - this is normal.  
Confirm by clicking: Yes, continue
- 7. Access Successfully Granted**   
The aggregator (magnalister) now has access to your Octopia seller account:
